Providing Services

Our Solutions – We reinvent cities by:

- Upgrading city-making with data & software: turning people flow and mobility data into actionable planning and management
- Working with partners to operate real services: building OS functions (reservations, vouchers, signage, tenant engagement)
- Co-creating real experiences and places: smart tourism, cruise platforms, multimodal mobility, and regional activation
- Supporting governments and developers: with urban dashboards for sustainable city management

Project Achievement / Technical Expertise

Digitize Tourism Development

Forming Innovation Districts

Multimodal Mobility Management

Activation Tokyo Bay Area
