

Company Information	Company Name	0			Industry	Manufacturing / System Integrator		
	Website	https://www.nesic.co.jp/english/						
Technology / Solution	Tech/Solution Name	Video Management System						
	Which field does the tech/solution contribute to?	Smart City						
	Which problem can the tech/solution solve?	Traffic/Mobility	<input type="radio"/>	Energy	<input type="radio"/>	Disaster Prevention	<input type="radio"/>	
		Infrastructure Maintenance	<input type="radio"/>	Community Activation / Sightseeing	<input type="radio"/>	Health/Medical	<input checked="" type="radio"/>	
		Agriculture, Forestry and Fisheries	<input checked="" type="radio"/>	Environment	<input type="radio"/>	Security	<input type="radio"/>	
		Logistics	<input type="radio"/>	Urban Planning / Maintenance	<input type="radio"/>	Others (Free Writing)		
	Key words	Camera, Server, Video management						
	Overview of the tech/solution	Management system of videos from security cameras and surveillance cameras. It can be possible for central management of data, to retrieve past data, and to send alarm when detecting particular motion in video.						
	Discription of the tech/solution	<p>Providing total optimized system</p> <pre> graph TD MS[Management Server] --- WS[Web Client] MS --- MC[Mobile Client] MS --- MCL[Management Client] MS --- RS[Recording Server] MS --- MSS[Mobile Server] MS --- SS[SQL Server] RS --- C1[Camera] RS --- C2[Camera] MSS --- C3[Camera] MSS --- C4[Camera] MSS --- C5[Camera] </pre> <p style="text-align: center;">=</p>						
	Global Expansion	Asia	Already developed	Africa	No plan to develop	Middle East	Consider if requested	Europe
Russia		No plan to develop	Oceania	Consider if requested	North America	Consider if requested	Mid/South America	Consider if requested

Case Study	Country	Singapore																
	City																	
	Project name	Video Management system for unmanned operation train in airport																
	Project Overview	Central management of video from on-board camera and camera at stations.																
	Discription of the project
