

Company Information	Company Name	0			Industry	Manufacturing / System Integrator		
	Website	https://www.nesic.co.jp/english/						
Technology / Solution	Tech/Solution Name	Smart mobility Communication system						
	Which field does the tech/solution contribute to?	Quality Infrastructure and Smart City						
	"Quality Infrastructure"	Road/Bridge	<input checked="" type="checkbox"/>	Port	<input checked="" type="checkbox"/>	Airport	<input type="checkbox"/>	
		Water and Sewage	<input checked="" type="checkbox"/>	Power generation /Energy	<input checked="" type="checkbox"/>	Railroad	<input type="checkbox"/>	
		Housing	<input checked="" type="checkbox"/>	ICT	<input type="checkbox"/>	Others (Free Writing)		
	"Smart City"	Traffic/Mobility	<input type="checkbox"/>	Energy	<input checked="" type="checkbox"/>	Disaster Prevention	<input checked="" type="checkbox"/>	
		Infrastructure Maintenance	<input type="checkbox"/>	Community Activation /Sightseeing	<input type="checkbox"/>	Health/Medical	<input checked="" type="checkbox"/>	
		Agriculture, Forestry and Fisheries	<input checked="" type="checkbox"/>	Environment	<input checked="" type="checkbox"/>	Security	<input checked="" type="checkbox"/>	
		Logistics	<input type="checkbox"/>	Urban Planning /Maintenance	<input type="checkbox"/>	Others (Free Writing)		
	Key words	Railway communication, Mobile communication						
Overview of the tech/solution	Designing, Installing and Maintenance for communication systems for on-board, in station and between stations for metropolitan railway and unmanned trains.							
Discription of the tech/solution	<p>Providing most optimized system</p>							
Glocal Expansion	Asia	Already developed	Africa	Consider if requested	Middle East	Already developed	Europe	No plan to develop
	Russia	No plan to develop	Oceania	Consider if requested	North America	Already developed	Mid/South America	No plan to develop

	Country	USA																
	City	Several cities																
	Project name	Communication and control system																
	Project Overview	Providing communication and control system for unmanned operation trains in several airports in USA																
Case Study	Discription of the project	<div style="display: flex; justify-content: space-around; align-items: center;">   </div>																
	Website of the project
